

*'In the Pink' designed by Ceri Wagnell and Monica Palmer*

*'Best Landscape Design Display 2009' Garden Week, Perry Lakes*

## *'In the Pink'*

Proudly supporting the Breast Cancer Foundation of WA

Ceri & Monica designed 'In the Pink' as a garden for Breast Cancer Awareness. It is a place designed to bring life back to what really matters, our friends and family and enabling us to reconnect with ourselves and nature. Our beautiful Perth climate allows us to enjoy alfresco cooking and dining all year round in an outdoor kitchen and home grown organic vegetables encourage healthy living whilst bringing enjoyment and self satisfaction. When the evenings become cooler, the lounge area with its living roofline, soft grass carpet and stunning fireplace is the place to retire to. The daybed and meditation area surrounded by lush scented plants is perfect for rest and relaxation, with the gentle flow of the water feature masking the sounds of urban life around us.
